GUBA'S DAY.

Mergan Favors Recognition of Belligerency.

Washington, April 2-The Cuban question was revived in the senate yesterday, after a long period of comparative calm. Four distinct Cuban resolutions were rought forward in rapid succession. The ast and most important one came from Senator Morgan, of Alabama. It declares that a state of war exists in Cuba and

that a state of war exists in Caba and announces the policy of the United States to maintain a strict neutrality. With full recognition of the insurgents as belilgorents. Mr. Morgan gave notice that he would call up the resolution at the next thresting of the senate, with the expectation of securing final action.

Of the other resolutions, two were agreed to. One of these, by Mr. Morgan, calls on the president for the letters of Ceneral Gomez to himself and Mr. Cleveland and for other information on Cuban affairs. The other, by Mr. Mills, of Texas, inarructs the committee on foreign relations to report what obligations to the limited States has assumed by compelling Cuba to remain subject to Spain. Both resolutions were pussed without opposition, Still another resolution came from Mr. Allen, of Nebraska, and proposed a protest against the reported purpose of the Spanish authorities to try Gen. Ruis Rivera, the Cuban officer, by military drum head court martial and shot, and protesting that Gen. Rivera, of the Cuban forces, had been captured by the Spanish and was about to be tried by drum head court martial and shot, and protesting that Gen. and Mr. Hoar. The resolution went over, to come up with the resolution for the recognition of Cuban belligerency at the next meeting.

A spirited debate followed the new phases of the Cuban question. Mr. Allen (Pop., Neb.), presented a resolution reciting that Gen. Rivera, of the Cuban forces, had been captured by the Spanish and was about to be tried by drum head court martial and shot, and protesting against such trial as contrary to the rules of civilized warfare. Mr. Allen asked for immediate consideration of the resolution. Mr. Hoar said it did not comport with the dignity of the senate. There should be decorous and orderly proceeding on these international questions and he would object to the resolution unless it was allowed to go to the committee.

Although debate was not in order. Mr. Allen continued to argue the critical character of the Rivera case. Mr. Allen said that he did not want this resolution stifled by being committee. The resolutions followed in vapid succession.

Mr. Morgan's resolution asking the president for the litered of gen. Gomez to himself and Mr. Cleveland was adopted without division.

Mr. Morgan came forward with a sort of climax to the Cuban resolutions. He presented a joint resolution recognizing the existence of a state of war in Cuba, as follows:

"Resolved, By the senate and house of representatives, that a condition of public war exists between the government of Spaln and the government proclaimed and for some time maintained by force of arms by the people of Cuba; and that he triled States of Americs with and that a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territory of the United States."

The resolution was read several times at the request of senators who appeared to be greatly interested in it. The resolution was read several times at the request of senators who appeared to be greatly interested in it. The resolution remained on the table at Mr. Morgan's request. After this brief but lively seasion, devoted almost entirely to Cuba. the senate went into executive session and at 5:20 adjourned until Monday.

Havana, April 2.—The Diariode la Marina says editorially today that the policy of President McKinley and his cabinet is aliogether hostile to the plans of the insurgents. It prints also a letter from Gen. Maximo Gomez to Senor Morote, correspondent of El Liberal of Madrid, which runs as follows: "Upon your leaving my presence, I owe you an explanation especially as you write for the newspaper which you write for the newspaper which calls upon Spain to drown in blood your just aspirations. I cannot be san-guinary, but I feel sorry that under the guinary, but I feel sorry that under the special curcumstances you were not sentenced to death while in my camp. "It is natural we should feel that there must be much shedding of Spanish blood to heal the pain caused by the bloodshed at Punta Braya. The number of fashionable weddings is said by society people to be largely above the average, and in addition cards are yet to be issued for several events, the dates of which in Easter week have only recently been determined upon. The usual boom in the wedding market is ascribed in part to the evidences of returning prosperity, and also in a returning prosperity, and also in a measure to the fact that Easter week this year comes much later than usual, or practically on the edge of spring, and that consequently the atmospheric conditions for the honeymoon are likely to be more favorable than when Easter occurs in March, with the prospect of an-other month of winter weather ahead.

And Mr. Cooper of the "Big Store" has given similar warning.

The anti-department store bill is langulshing. There is small promise now of its passing before election. President Gillman, who is here with a delegation of six other members of the Business Mens' association, professes to believe that it will still be passed, but they all own a considerable discouragement.

The Republican leaders lay the hitch to the country members, who, they say, have "got their backs up" at the attempt of the Cook county people to railroad the thing through as a party measure. But the truth is the Democrats and Republicans have made it a foot ball game between them, and in the scrimmage both have "lost the ball."

Washington, April 2.—The announcement from San Francisco that Admiral Beardslee had received orders to sail for Honolulu could not be verified. Admiral Ramsey was rather reticent about denying or affirming the story.

'If Admiral Beardslee," he said, "has decided to go to Honolulu with his flagship there is no significance in the movement of the vessel, as the island lies in his territory and he is at liberty to proceed there without any orders from the navy department. He has just arrived at San Diego and it is just possible that he received a suggestion from the department to go to Honolulu, but no orders were sent and it is entirely optional with him whether the vessel goes to Honolulu or not."

He was emphatic in his opinion that there would be no significance in the movement.
